

What do I want to learn or understand better? Consider e.g. teamwork, Scrum, agile processes, technologies etc?

I'm most interested in learning how to work well in a team. Specifically, how to delegate work efficiently while also maintaining good code. For the same reason, I want to get better at using Git in a team by utilizing branches properly, for example.

What is my contribution towards the team's deliveries? How can I help my team do better next sprint?

For this sprint, I have contributed by working on the front-end (specifically the dashboard page for our app) together with 3 of my teammates. For the next sprint, I can do better
